

Classic Herringbone brought right up to date

Sierra Oak
58228

- 2 Brought together, Moduleo's extensive choice of Herringbone floors combine timeless aesthetics with all the benefits of LVT, bringing a modern twist to a classic design.

Beautifully authentic, wonderfully practical

With their authentic looks and realistic textures, our Herringbone floors are naturally beautiful and feel so comfortable underfoot. But at the same time being scratch, stain and water resistant as well as being easy to maintain, they're a hugely practical choice too.

Herringbone explained

To achieve the classic Herringbone pattern, **each tile should be placed at 90° to the one next to it**, creating a fish bone-like pattern, which also resembles a set of triangles or arrows.

Herringbone Classic

Made and designed in Belgium

From researching and testing to designing and producing, everything is done in-house. Right here in Belgium. Why? So we can be in charge of the entire production process and push the boundaries of our craftsmanship in every single step of it. It's easier for us, better for the planet and good for you.
